Evaluation	Effectiveness / Behavioral Accuracy	Locality / Utility Preservation	Generality / Robustness / Adaptivity	Interpretability / Transparency	Efficiency / Latency / Cost
Safety	Attack Success **Rate** Harm/Toxicity **Scores** AUC//Precision/Recall	Benign Response **Rate** False-positive **Rate** Downstream **Utility** Retain-set **Utility**	Benign Answer **Rate** Attack Success **Rate** AUC/Precision/Recall	Provenance Completeness; Agreement/ Correctness **Rate**	Relative Latency and Runtime Overhead; Computational Cost and FLOPs-Based Budgeting; Token Usage and Throughput
Privacy	**Rate** of Successful Extractions; Sensitive Outputs	False Positive **Rates** of the privacy action Downstream F1/Acc	*n* gram Leakage **Rate** Poisoning and Indirect Leakage **Rate**		
Fairness	**Group Disparity Gap** on curated templates or benchmarks	Group Utility **Gap** **Utility** preservation on biased groups	Normalized Discounted Cumulative **Gain** Bias Level **Score** VADER sentiment **Gap**	Explicit Probability **Gap;** NLI Entailment **Coverage**	
Factuality	Hallucination **Rate** Supported-claim **Ratio**	Task utility **retention** (EM/F1/Acc; win-rate) Refusal or Abstention Behavior	**Accuracy** curves under noisy documents **Shift/Stability** measures (CE, KL, cos similarity)	Faithful Evidence **Rate** Brier confidence **Score**
